

My name is Alex and I joined the Governing Body of Heathmere in summer of 2017. I am the Human Resources Governor and sit on the Resources Committee.

I've spent my whole career in various positions in HR in a number of different industries, including education, as well as studying HR as part of my degree back in New Zealand where I grew up. I have lived in the UK for 14 years now and am proud to be playing a small part in helping Heathmere to provide such an essential service to the community in Wandsworth.

I've been inspired by the drive to continually improve across the school to create the kind of environment and quality of learning for pupils to thrive in their development, and look forward to being part of this journey throughout my term as Governor.

Please come and say hello if you ever see me around the school – I'm keen to meet as many parents, pupils and employees as possible to learn more about how things are for our school community.
