

Hi, my name is Božena Birt, current Vice Chair of the Heathmere board of governors. I work full time as an organisation change consultant, with a background in eCommerce, marketing and strategy.

As a mother of 2, I am passionate about the role education, particularly primary education, plays in developing our future society. School plays a critical role in supporting the foundations for all children – academic learning and building confidence, as well as developing social and other life skills.

As a Putney local, I am pleased to be able to support Heathmere in its continued drive to ever improve what it can offer its students and community.
